RE: OLDS COLLEGE HIRES NEW ENERGY INDUSTRY CHAIR

FROM: Ralph Troschke
Acting Dean Animal Sciences & Horticulture

Olds College is pleased to announce the hiring of our new Energy Industry Chair effective July 1, 2016. Mr. Glenn Miller has accepted the position and will be liaising between industry and the College, promoting the Land program to a variety of industry sectors, while identifying future industry trends and programming requirements.

An endowed fund was created several years ago through generous industry contributions to support this position within the College. The intent of the position is to better link Olds College to key industry stakeholders, build stronger external relations, develop aboriginal relationships, and to improve upon our existing curriculum.

Olds College has patiently waited to find someone of Mr. Miller's caliber to fill the role. Mr. Miller is a graduate of the Olds College Land Agent program of 1994 and is an active member of the Canadian Association of Petroleum Landmen (CAPL) since 1998. He is a seasoned land professional with more than 22 years of experience in land, regulatory, and stakeholder affairs. He has worked directly in all facets of land, both in the field as well as in supervisory management roles for a wide variety of companies in the industry including Hunt Oil, Chevron, and Amoco. Mr. Miller plans to continue to work in the industry part-time which will enable Olds College and the Land program to have an ongoing presence into the industry. We look forward to Mr. Miller joining Olds and taking on the Energy Industry Chair position.

For further information, please feel free to contact Mr. Miller at 403-519-1520 or email millergd@shaw.ca or Ralph Troche at 403-556-8318.
