SUMMARY

Results-driven individual with over 30 years of experience in the oil and gas industry, mainly in surface rights acquisition for oil sands and conventional oil and gas projects. Demonstrated ability to manage multiple projects and priorities simultaneously. Developed strategies to ensure realistic timelines for field operations to progress. Demonstrated excellent problem solving skills, strong communication and interpersonal skills. Recognized for the quality and success of her undertakings, analytical thought, ability to see the broader picture, leadership skills, and understanding of diverse, complex and highly competitive environments.

PROFESSIONAL EXPERIENCE

HUSKY OIL OPERATIONS LIMITED, Calgary, Alberta

2000 – 2016

Surface Landman, Senior Surface Landman

- Work closely with management, team members, field personnel and external stakeholders on projects.
- Acquire surface rights for oil sands projects and conventional oil and gas.
- Extensive involvement in aboriginal consultation and stakeholder engagement.
- Participate in planning meetings and preparation of project execution plans for oil sands projects.
- Subject matter expert for lessons learned for surface land in oil sands.
- Participate in risk management meetings for oil sands.
- Advise on time lines and requirements for consultation and acquisition for projects.
- Collaborate with other service groups to ensure a consistent approach to consultation.
- Participate in planning, arranging and holding open houses and information sessions for stakeholders.
- Develop and present presentations for various groups throughout the organization.
- Collaborate and address issues or solve problems with stakeholders as they arise.
- Contributing member of exploration, facilities and production teams as they relate to their project.
- Developed strong relationships with Government departments: Alberta Sustainable Resource Development, Alberta Energy Regulator, Alberta Consultation Office, and other County, Municipalities, Provincial and Federal agencies as required.
- Plan, coordinate and manage surface land workflow to ensure timely acquisition for success of the project.
- Worked closely with and mentored surface land administration staff and other surface landmen.

Key Achievements:

- Acquired all the surface rights, including consultation and community engagement, necessary for the exploration, construction and development of SAGD oil sands projects in the Fort McMurray, Cold Lake and Wabasca areas in a timely manner for execution of the projects.
- Arranged and conducted an information session which successfully alleviated stakeholder concerns with regards to the reclamation of a historic trail.
- Conducted stakeholder engagement and emergency response planning for a high concentration H2S pipeline in Northern Alberta to support approval for construction of the pipeline.

RENAISSANCE ENERGY, Calgary, Alberta

1998 – 2000

Surface Land Administrator

- Coordinated and acquired surface rights for a 150 well northern drilling program.
- Notified drilling and facilities of surface acquisition, arranged for execution of documents and their return, prepared agreements, set up files, updated computer system and prepared invoices for payment.

UNOCAL CANADA LIMITED, Calgary, Alberta

1984 – 1998

Senior Revenue Clerk, Administrative Analyst, Production Agreement Analyst, Surface Land Administrator

- Responsible for the timely execution of large numbers of projects throughout Alberta, British Columbia and the North West Territories, all requirements for surface acquisition, community consultation and administration.
- Acquired all surface rights necessary for the construction and tie-in of a new gas plant and multi well gas gathering system and production accounting set up to meet an accelerated start-up date.
- Prepared surface land divestiture documents for \$500 MM in property sales.
- Set up a new field data capture system and assisted in training field staff on the new system.
