

Cathy Mageau

Since graduating in 2000 with a Bachelor of Commerce, concentrating in Petroleum Land Management, I have spent 3 years as a Contracts Landman with Imperial Oil and 5 years as a Mineral Landman at Canadian Natural Resources. After spending some time at home with my children, I rejoined the industry working for Georox Resources as a Land Consultant in December 2016. Since February 2017, I have been volunteering on the CAPL education committee coordinating instructors for surface courses.

I am available for part-time employment opportunities.
